

Grant Proposal Assistance Preferred Provider Listing

Last Updated 1/18/18

Preferred Providers are specialized federal grant writing, proposal editing and assistance professionals who have agreed to provide their services to the Innovation Partnership clients who have been awarded a [MicroGrant](#), [MicroVoucher](#) (Phase I assistance), or Federal Marketing Assistance (FMA Program - Phase II assistance) funding.

These professionals should be contacted by IPart clients as early as possible, prior to a federal solicitation deadline in order to secure services. All terms and conditions for securing proposal assistance from the providers are negotiated directly between the client and the Preferred Provider. See the [MicroVoucher Program Guidelines](#) for specifics about working with a Preferred Provider.

Please click on the Provider name to go directly to their annotated listing. More detailed information on each Provider is available either directly from their website or by direct contact.

Together they have over 70 years of expertise in managing scientific projects and products in academia, pharmaceutical companies and start-ups. Services include: 1) assistance with product development planning and grants-based seed funding; 2) operations management for virtual companies; and 3) scientific due diligence. ■ Since its inception SciGro has assisted a wide variety of companies in applying for SBIRs at the Department of Agriculture, the Department of Defense, the National Science Foundation, and the National Institutes of Health. SciGro is especially well positioned to help with preparation and/or pre-review of any and all portions of SBIRs directed to the NIH because over the past 20 years Betsy has served on or chaired a variety of NIH committees reviewing BRPs, P01s, P41s, R01s, R21s, R41s and R42s (STTRs), R43s and R44s (SBIRs), and S10s. |
